Fuquay-Varina, NC 27526

Dear Chris,

On behalf of Federal Schedules, Inc., I would like to express my appreciation of your great customer service and support that we have received over the past 4 years with a multitude of projects.

Since we began working with you and xlr8 Technologies to update our website, we have been impressed with the level of service that we have received to fix any issues or problems that have arisen or changes that we have requested. This level of customer service has caused us to use you and your team at xlr8 to continue updating our website and starting several SQL database projects.

We have had many challenges with designing and implementing our database projects and you and your team have done an outstanding job at meeting these challenges. We experienced the same high level of customer service on our database projects as we did on our website revisions. You and your team have been able to tailor things to our needs and wants.

I cannot thank you and xlr8 Technologies enough for the professionalism and quality of service and support that we have received. These qualities are why we continue to use you and xlr8 Technologies with confidence.

Sincerely,

Douglas P. Dobrynski  
Director of MIS  
Federal Schedules, Inc.
