

Testimonial for Linksourcecom.com

If asked to give two words to sum up my dealings with xlr8 Technologies LLC they would have to be accessible and reliable; and what is more important than this when using a company to deal with all my IT needs? When coupled with the exceptional understanding of the needs and requirements of my business I cannot praise xlr8 enough.

Chris and his team have conducted a large amount of work for me; ranging from the hosting, development and design of the companies corporate website through to creating many marketing and promotional items as well as a great deal in between. They are adept, proficient and extremely capable of handling all of my companies IT needs.

Having one company that is responsible for our technological needs allows me to feel secure that such a vital part of my business is in safe hands; not only does xlr8 Technologies have the range of skills required they are also fantastic in offering reassurance and proving a roadmap to completing projects.

There is no doubt whatsoever in my mind that Chris takes a great deal of personal interest and pride in the work of his company- illustrated in the way that he never lets anything be sent out to me before it first meets his approval and high standards.

This due diligence shown by Chris and his team at xlr8 Technologies LLC, teamed with the high level of skills and knowledge held within the company, means that I have continued to entrust my workload to them, and will continue to do so in the future.
