## Testimonial of RightStar Systems

As a business we needed the right people to fulfil our IT requirements; a company with excellent credentials, extensive experience and who strive for perfection in the same manner as we do. In looking for this we found xlr8 Technologies LLC and there is no doubt that this company has all the qualities we were looking for- and more!

When looking for a company to provide our business with a wide range of IT needs we were determined to find the right person to develop this important aspect of the business. Everything from website design through to the hosting of the website was of vital importance to us and we have found the xlr8 Management Server not only easy to learn and administer but also powerful enough to provide the functionality our company requires.

xlr8 Technologies LLC provide a wide range of services for us from the technical aspects of website design right the way to the content of the website, enabling us to increase our search engine optimization. Their system allows our professional website to run almost self-sufficiently, without the need for a dedicated technical resource.

What really makes xlr8 Technologies stand out is their attention to detail and their unrivalled level of customer service. We have never failed to be impressed by the speed of response and level of attention that has been given by the team at xlr8 Technologies; we have been consistently impressed by the level of customer service provided by xlr8 Technologies LLC.

Many aspects from the base level up have been expertly covered by xlr8 Technologies LLC; the development of the website, the hosting of the website and its content are all enhanced and enabled by the wonderful work of xlr8. We can't praise you enough!
