xlr8 Technologies, LLC Search Engine Optimization (xlr8SEO)

Web-savvy companies know that Search Engine Optimization (SEO) is the most cost-effective marketing vehicle for driving qualified traffic to their web sites.

xlr8 Technologies, LLC uses the industry's #1 solution for SEO, helping you to optimize your site's relevancy and visibility with search engines to improve your search positions.

Search Engine Optimization (SEO) isn't a one-time effort. The variables that influence search visibility and rankings are constantly changing. Search engines update their rules. Competitors constantly optimize their pages to improve their rankings, and new players enter.

Without an SEO solution to keep you constantly updated on changes that could negatively affect your rankings, you could lose highly targeted web traffic to your competitors.

Pricing: \$29.99 - \$150.00 per month

Our Five-Step Proven *xlr8*SEO Rank Boost Program

Optimization of your website for top ranking. We perform careful research to determine which keywords and phrases will be most effective for your business. If you have an existing website, we examine your site for common failures that can result in poor search engine ranking. *xlr8* Technologies also provides keyword analysis and custom-created meta tags, title tags and description tags.

Submission of your website by one of our experienced project managers to ensure your site receives the best placement. Your site is then registered with thousands of search engines and directories worldwide.

Link Popularity Boosting / Pay-per-Click – *xlr8* Technologies will find out what the best websites are for reciprocal links in order to boost your "link popularity". *xlr8* Technologies then contacts each of these sites individually to set up link opportunities for you. We also determine if a Pay-per-Click method would be optimal for each client.

Refresh your website with monthly resubmissions for a one-year period. This ensures your listing stays current with those search engines who don't update their database every 48 hours.

Track your website's ranking and email you the results on a monthly basis.

Benefits of *xlr8*SEO:

Research confirms over 80% of web visitors use search engines to find the information they're seeking online. When a potential customer conducts a search for keywords related to your site's products or services, does your page appear in the top listings? How many customers are you potentially losing because your competitors have better visibility?

- Maximize your site's visibility with the search engines
- Drive more qualified prospects to your site
- Stay ahead of your competition
- Increase your sales conversion and ROI
